Free Of: Parabens and artificial thickeners.

9,5 L (2.5 Gallon)
SKU 24025
02165324025

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Soft cleaning agent (surfactant), foam generator, hair and skin conditioning.

Cocamide DIPA

Rating: n/a

Usage: Emulsifying: Promotes the formation of intimate mixtures between immiscible liquids by modifying the interfacial tension (water and oil).

Surfactant: Reduces the surface tension of cosmetics and contributes to the even distribution of the product when it is used. Viscosity controlling : Increases or decreases the viscosity of cosmetics.

19 L (5 Gallon)
SKU 24050
021653240506

Alpha Olefin Sulfonate (Sodium C14-16 Olefin Sulfonate)

Rating: 2 out of 5

Usage: Surfactant, foaming agent, cleaning agent, moistener, emulsifier.

PEG-75 Lanolin

Rating: 2 out of 5

Usage: Emulsifier, moistening agent, softener, surfactant.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

Hydrolyzed Soy Protein (Glycine max)

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Aloe Vera

Rating: 5 out of 5

Usage: Healing and moisturizing agent, heals burns and wounds, antimicrobial and anti-inflammatory effect.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

Chamomile (Matricaria Chamomilla)

Rating: 5 out of 5

Usage: Valid for all types of chamomile. Used in cosmetics in the form of powder (powdery chamomile), extract, oil, hydrolate and other forms. Soothing effect, freshening and moistening component. Ideal for sensitive skin, antiseptic, relieves irritation. Flavoring agent. Revitalizing, anti-inflammatory, cleaning, protective, smoothing, rejuvenating, and lightening agent, strengthens hair, promotes hair gloss.

Yarrow (Achillea)

Rating: 5 out of 5

Usage: Various uses.

Lemongrass (Cymbopogon Flexuosus)

Rating: 5 out of 5

Usage: Aromatic substance. It is used in products for oily skin and hair.

Hops (Humulus Lupulus)

Rating: 5 out of 5

Usage: Softening, antibacterial, revitalizing effect.

Rosemary (Rosmarinus)

Rating: 5 out of 5

Usage: Antiseptic, anti-inflammatory, relieves skin irritation, stimulates hair growth, tones the skin, strengthens hair, antioxidant, bactericidal, anti-dandruff, anti-couperosis, tightens pores.

Danger: Safe when used as intended.

Balm mint (Melissa Officinalis)

Rating: 5 out of 5

Usage: Normalizes secretion, deodorizing, healing, anti-inflammatory, antifungal, revitalizes skin, antiseptic, skin regeneration, antioxidant, anti-aging substance.

Benefits:

- Relieves itchiness and protects skin with minor cuts, scrapes, burns, chapped skin and insect bites.
- Increases skin hydration.
- Helps reduce redness and irritation.
- Excellent Anti-Oxidant source.
- Natural Cleansers derived from regrowable and 100% biodegradable sources of Corn, Coconut and Palm Kernel Oils.
- Safe for puppies, kittens and our environment.
- Biodegradable and pH balanced.
- Cruelty Free – Soap Free.

Directions: Shake well before each use. Wet coat thoroughly with warm water. Apply **Natural Oatmeal** Shampoo to the coat, and avoid contact with eyes. Work in additional water to obtain maximum benefits. Massage well into the hair and allow to stand for 5 minutes. Rinse. Repeat application and rinse thoroughly. For added anti-itch benefits, use in combination with Bio-Groom's Natural Oatmeal Crème Rinse after shampooing.

Ingredients: Purified Water, 2% (RAW) Colloidal Oatmeal USP, Decyl Glucoside, Disodium Cocoamphodiacetate, Sodium Laureth Sulfate, Lauramidopropyl Betaine, Bishydroxyethyl Dihydroxypropyl Stearammonium Chloride, Cocomide DIPA, Vegetable Glycerine, Aloe Vera, Citric Acid, Rainfall Fragrance, Phenoxyethanol.

Free Of: Parabens and dyes.

Colloidal Oatmeal

Rating: 5 out of 5

Usage: Soothing, softening, lubing effect. Nourishes and rejuvenates skin. Filler, adsorbent.

Decyl Glucoside

Rating: 5 out of 5

Usage: Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener.

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Soft cleaning agent (surfactant), foam generator, hair and skin conditioning.

Sodium Laureth Sulfate

Rating: 2 out of 5

Usage: Foaming agent, emulsifying component, surfactant. Derivative of ethoxylated lauryl alcohol.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

Bishydroxyethyl Dihydroxypropyl Stearammonium chloride

Rating: n/a

Usage: antistatic.

Cocamide DIPA

Rating: n/a

Usage: Emulsifying: Promotes the formation of intimate mixtures between immiscible liquids by modifying the interfacial tension (water and oil). Surfactant: Reduces the surface tension of cosmetics and contributes to the even distribution of the product when it is used. Viscosity controlling : Increases or decreases the viscosity of cosmetics.

Vegetable Glycerin

Rating: 5 out of 5

Usage: Emulsifier, solvent, moistening agent, improves hair structure, promotes hair gloss, softens skin.

Aloe Vera

Rating: 5 out of 5

Usage: Healing and moisturizing agent, heals burns and wounds, antimicrobial and anti-inflammatory effect.

Citric Acid

Rating: 5 out of 5

Usage: Skin cleaning and peeling, antioxidant, preservative, stabilizes acidity, skin bleaching, nail plate strengthening, promotes hair growth, anti-inflammatory action, lifting.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

WATERLESS BATH

Tearless No Rinse Shampoo

236 ml / 473 ml / 3,8 L

A bath without water, **Waterless Bath™** allows you to shampoo without wetting or rinsing when bathing is not practical. Waterless Bath™ contains conditioners that leave the skin and coat looking and feeling its best. It contains no harsh chemicals, leaves no irritating residue, and is pH balanced and mild.

Safe to use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Benefits:

- To remove stains
- Between baths
- During bad weather
- To prevent tracking in the home
- To spot clean and deodorize
- When caring for puppies and kittens
- After surgery
- Soiling mishaps
- For old and sick pets
- Cruelty Free – Soap Free

Directions: Wet hair thoroughly with **Waterless Bath™** and massage well until a light cleansing foam appears. Dry with a soft, absorbent towel and then simply brush, comb or blow dry.

Ingredients: Purified Water, Sodium Coco Sulfate, Decyl Glucoside, Lauramidopropyl Betaine, PEG-75 Lanolin, Polysorbate 20, Chamomile, Lavendar Fragrance, Phenoxyethanol, Blue1, Red 33.

Free Of: Parabens and artificial thickeners.

Econo-Groom® is a protein and lanolin enriched conditioning formula for routine use by professional groomers that combines highest quality with maximum economy.

Safe to use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Benefits:

- Gives body and lustre to the coat.
- Moisturizes and conditions the skin.
- Extra mild, Hypo-Allergenic concentrated shampoo.
- Fast and easy to rinse – leaves no residue.
- Natural Cleansers derived from regrowable and 100% biodegradable sources of coconut oil.
- Cruelty Free – Soap Free.

Directions: Dilute concentrate with 30 parts of water – mix well. (Dilution may be affected by local water conditions. Adjust dilution ratio until desired results are obtained.) Wet hair thoroughly with warm water. Apply adequate amount of diluted shampoo and work well through the coat. Rinse with warm water and dry. Repeat if additional conditioning is desired.

Storage Tip: At or below 11° C (52° F), Econo-Groom will become creamy white in appearance. Will return to original appearance when warmed to or above room temperature.

COUNTRY FREESIA CRISP APPLE WILD HONEYSUCKLE

Skin Soothing Aloe Vera & Chamomile Shampoo 8 to 1 Concentrate

355 ml of concentrate - 3,2 L of ready-to-use shampoo

Bio-Groom fragrance infused shampoo is presented as our invitation to come grow with us. Created to stir the senses, captivate by smell and cleanse beautifully! Bathing is a complete delight! It's a win, win, and win opportunity. Made from natural ingredients with added Chamomile and Aloe Vera, Bio-Groom fragrance infused shampoo is mild and soap free. It cleans thoroughly and rinses effortlessly leaving the coat soft, shiny, and with a natural, clean exciting scent!

Benefits:

- Coconut oil natural cleansers known for mildness
- Contains Soy Protein which strengthens and conditions the coat and skin
- Will not strip the protective oils from the skin and coat
- Contains 100% Natural Aloe Vera which is well known for its moisturizing and medicinal benefits on the skin
- Foams and rinses out extremely fast

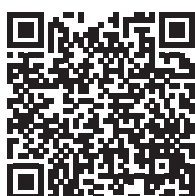

Safe for puppies, kittens and our environment.

Directions: Wet the coat with warm water. Apply shampoo and work well through the coat. Avoid contact with eyes. For best results shampoo and rinse again, then dry and groom as usual. Use cologne after bath and between bathings. Shampoo may be diluted with up to 8 parts water.

Safe to use with topical Flea & Tick treatments.

Ingredients: Purified Water, Sodium Coco Sulfate, Cocamidopropylamine Oxide, PEG-4 Rapeseedamide, Decyl Glucoside, Vegetable Glycerine, Soy Protein, Matricaria Chamomile, Wheat Germ Oil, Aloe Vera, Fragrance, Phenoxyethanol, Green

Free Of: Parabens and artificial thickeners.

ANTI-SHED

Deshedding Dog Shampoo

8 to 1 Concentrate

355 ml of concentrate - 3,2 L of ready-to-use shampoo
3,8 L of concentrate - 34,2 L of ready-to-use shampoo

Anti-Shed Deshedding Shampoo for dogs is a mild, high quality, natural shampoo specifically developed to help reduce shedding. This shampoo is great for double coated and long-haired breeds to keep their shedding down. It grips the loose coat and removes stubborn hair and loose undercoat during bathing to cut down on brushing and grooming as a whole.

Our dog shedding shampoo reduces the amount of extra brushing for double coated or long hair breeds. Additionally, the removal of loose hair decreases the chances of matting and hot spots. Anti-Shed works to a fast lather, rinses out quickly, and leaves the coat with a clean, fresh smell. It can and should be used all year, but customers will see the greatest benefits during weather changes.

This mild, dog deshed shampoo will not strip the protective oils from your pet's skin or coat, and the Soy Protein in our formula gives strength and body to their coat. Anti-Shed shampoo is free of parabens and artificial thickeners. It is cruelty free, soap free, and sulfate free. This shampoo is safe to use with topical flea and tick treatments and is recommended by top breeders and professional groomers worldwide.

Other anti-shed products are usually only available in shampoos. Use our Anti-Shed Deshedding Shampoo with our Anti-Shed Crème Rinse for extra superior results.

Benefits:

- Shed shampoo for dogs to help reduce shedding, quicken grooming time, and decrease brushing.
- Can be used all year but is especially useful during weather changes.
- Will not strip the protective oils from your pet's skin or coat and features Soy Protein to strengthen and add body to their coat.
- Lathers quickly and rinses out fast, leaving the coat smelling fresh and clean.
- Mild, high-quality, and sulfate-free.

Directions: Wet coat thoroughly with warm water. Apply Anti-Shed Shampoo and work well through the coat for at least 3 minutes, avoiding contact with eyes. Rinse. For best results, shampoo and rinse again. Use Anti-Shed Crème Rinse, then dry and groom as usual. May be diluted with up to 8 parts of water.

Ingredients: Purified Water, Decyl Glucoside, Alpha Olefin Sulfonate, Disodium Cocoamphodiacetate, Cocamidopropyl Hydroxysultaine, Polyquaternium-7, Glycerin (Vegetable), Hydrolyzed Soy Protein, Aloe Vera, Phenoxyethanol, Fragrance.

Free Of: parabens and artificial thickeners.

Decyl Glucoside

Rating: 5 out of 5

Usage: In high-end human cosmetics. Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener. Decyl glucoside is a mild non-ionic surfactant used in cosmetic formularies, including baby shampoo and in products for individuals with a sensitive skin. Many natural personal care companies use this cleanser because it is plant-derived, biodegradable, and gentle for all hair types. Improves stability and shelf life. 31% of usage is a Baby shampoos.

Alpha Olefin Sulfonate

Rating: 2 out of 5

Usage: Non Sulfate Anionic Surfactant, foaming agent, cleaning agent, moistener, emulsifier. Most effective at removing oily residue. Alternative to sodium laureth sulfate SLS. Used today in shampoos and other bath products due to its skin mildness, cleaning and foaming characteristics and its ability to mix well with water to remove dirt and oils.

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Used in natural and vegan cosmetics. Soft cleaning agent(surfactant), with amphoteric structure meaning that its head contains both a positively and a negatively charged part (surfactants are most commonly anionic meaning their head has a negative charge) mild foam generator, hair and skin conditioning. Prevents irritation of the skin, eyes and mucous membranes. It is authorized in organic products. Makes hair easy to comb, soft and shiny. Confers volume and lightness. Maintains skin in good condition. Recommended for baby products

Cocamidopropyl Hydroxysultaine

Rating: 3 out of 5

Usage: Amphoteric Surfactant, antistatic, skin and hair conditioning, foaming agent and booster, increases viscosity (thickener).According to EWG, is a safe ingredient, vegan. It is not expected to have a negative impact on human health. It is not toxic and doesn't cause cancer. Could be considered natural.

Polyquaternium-7

Rating: 2 out of 5

Usage: Filming agent, hair fixer, used for hair rinsing, antistatic and antibacterial effect.

Glycerin (Vegetable)

Rating: 5 out of 5

Usage: Emulsifier, solvent, moistening agent, improves hair structure, promotes hair gloss, softens skin.

Hydrolyzed Soy Protein

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Aloe Vera

Mark: 5 out of 5

Usage: Healing and moisturizing agent, heals burns and wounds, antimicrobial and anti-inflammatory effect.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Soft cleaning agent (surfactant), foam generator, hair and skin conditioning.

Decyl Glucoside

Rating: 5 out of 5

Usage: Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener.

Cocamide DIPA

Rating: n/a

Usage: Emulsifying: Promotes the formation of intimate mixtures between immiscible liquids by modifying the interfacial tension (water and oil). Surfactant: Reduces the surface tension of cosmetics and contributes to the even distribution of the product when it is used. Viscosity controlling : Increases or decreases the viscosity of cosmetics

Hydrolyzed Adansonia Digitata Seed Protein (Adansonia Digitata)

Rating: 5 out of 5

Usage: Various uses.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

Bishydroxyethyl Dihydroxypropyl Stearammonium chloride

Rating: n/a

Usage: antistatic

Vegetable Glycerin

Rating: 5 out of 5

Usage: Emulsifier, solvent, moistening agent, improves hair structure, promotes hair gloss, softens skin.

Aloe Vera

Rating: 5 out of 5

Usage: Healing and moisturizing agent, heals burns and wounds, antimicrobial and anti-inflammatory effect.

Wheat Germ Oil (Triticum Vulgare Germ)

Rating: 5 out of 5

Usage: Moistening, nourishing, healing, smoothing, increases skin elasticity.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

Methylisothiazolinone

Rating: 2 out of 5

Usage: Preserving component.

MINK OIL

Instant Coat Glosser Conditioner

4 to 1 Concentrate

355 ml of concentrate - 1,8 L ready-to-use conditioner

3,8 L of concentrate - 19 L ready-to-use conditioner

Enriched with Vitamin E, **Mink Oil** Spray gives the hair a beautiful deep down luster and sheen with one application. It thoroughly conditions coat and skin, while special sunscreens help protect hair from sun damage, bleaching, drying, and breakage. It promotes healthy coat development and growth, leaving the coat manageable and show ring ready. Non-sticky, non-greasy, non-aerosol.

Safe to Use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

100% Biodegradable.

3,8 L (Gallon)
SKU 30728
0 21653 30728 5

Directions: Spray lightly and evenly over the entire coat. Brush and groom as usual. For instant conditioning mix 1 part of Mink Oil with 3 or 4 parts of warm water. Saturate the coat with this solution, then slowly rinse with lukewarm water, assuring deep penetration of hair and the skin. Bathe with Bio-Groom shampoo before showing or when treatment is completed.

WARNING: FLAMMABLE! Do not spray near open flame. Avoid spraying in eyes.

Keep Out of Reach of Children.

Ingredients: Isopropyl Alcohol, Lanolin, Mink Oil, Mineral Oil, Ethylhexyl Dimethyl PABA, Wheat Germ Oil, Benzophenone-3, Perfume.

<http://biogroom.shop/shop/dog-products/conditioners/mink-oil-spray/>

Isopropyl Alcohol

Rating: 4 out of 5

Usage: Preservative component, solvent, flavour, viscosity regulator, defoamer.

Lanolin

Rating: 5 out of 5

Usage: Thickener, emulsifier, emollient, nourishes the skin, heals, rejuvenates. Improves the condition of hair, promotes gloss and silkiness.

Mink Oil

Rating: 2 out of 5

Usage: Softening and healing remedy for hair and skin. ECOgolik gives rating 2 to this component, as it is extracted from subcutaneous fat of minks, which involves animal cruelty.

Mineral oil (Paraffinum Liquidum)

Rating: 2 out of 5

Usage: Petroleum product. Moistener, softener, antistatic, Solvent.

Ethylhexyl Dimethyl PABA

Rating: 2 out of 5

Usage: UV-filter, UV-absorber. Lecithin-like emulsifier.

Wheat Germ Oil (Triticum Vulgare Germ)

Rating: 5 out of 5

Usage: Moistening, nourishing, healing, smoothing, increases skin elasticity.

Benzophenone-3

Rating: 2 out of 5

Usage: Is a lecithin-like emulsifier, often used in sun protection cosmetics.

SUPER CREAM

Coat Conditioning Concentrate

24 to 1 Concentrate

227 g / 454 g

The most effective Oil Treatment for coat and skin. An oil-rich cream that contains wheat germ oil, protein, vitamin E and other special cosmetic grade coat and skin conditioners. Deep conditions instantly-essential for dry, damaged hair. Moisturizes the skin to help prevent and relieve dryness and itching. Easy wet and dry combing. Leaves coat shiny and in top show condition with non-oily feel. Non-irritating, anti-static, pH balanced. Washes out with Bio-Groom Shampoo.

Safe to Use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – Silicone Free.

Benefits

Moisturizes the skin to help prevent and relieve dryness and itching. Easy wet and dry combing. Leaves coat shiny and in top show condition with non-oily feel.

Ingredients: Purified water, Glycol Stearate, Celeth-2, Polyethylene Glycol Monostearate, Mineral Oil, Soy Protein, Wheat Germ Oil, Fragrance, Citric Acid, Panthenol, Phenoxyethanol.

Directions

HOT OIL TREATMENT

Just one of many ways to use Super Cream.

1. Begin by prepping the product. You will need a 2 cup glass or microwave safe measuring cup.
2. Fill measuring cup with 1 1/2 cups of water and add Super Cream according to size of pet: 1 heaping tablespoon for small dog, 2 heaping tablespoons for medium size dog, 3 heaping tablespoons for a large dog (Optional: add 1 capful of Vita Oil for every tablespoon of Super Cream to enhance the results more dramatically.)
3. Heat mixture in microwave for approx. 2 minutes. Stir after heating until mixture has consistency of whole milk. Allow mixture to sit until it is 'very warm', but will not scald the dog.
4. While mixture is cooling: Bathe dog thoroughly with Bio-Groom shampoo. Rinse dog completely but do not dry.
5. Apply mixture when it is still very warm to wet dog, and massage into skin and coat.
6. Allow pet to remain in a warm area with applied mixture for 15-60 minutes. The longer you allow the treatment to stay on dog, the more amazing the results.
7. To complete treatment, shampoo pet once again and groom as usual.

NATURAL OATMEAL CONDITIONER

Soothing Anti-Itch Crème Rinse

4 to 1 Concentrate

355 ml of concentrate - 1,8 L ready-to-use conditioner

3,8 L of concentrate - 19 L ready-to-use conditioner

Bio-Groom's Natural Colloidal Oatmeal Crème Rinse is made with all natural Colloidal Oatmeal USP. Colloidal Oatmeal is known to be the most effective on skin & coat.

Safe to Use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – 100% Biodegradable.

Benefits

- Relieves itchiness and protects skin with minor cuts, scrapes, burns, chapped skin and insect bites.
- Increases skin hydration.
- Helps reduce redness and irritation.
- Excellent Anti-Oxidant source.
- Strengthens hair

Directions

Shake well before each use. After shampooing and rinsing apply an adequate amount of Crème Rinse to the coat and work in well. Allow to remain on the hair and skin for 5 minutes. Rinse with lukewarm water. For best results dilute 1 part with 4 parts of warm water depending on the type and condition of the coat. For added anti-itch benefits, Use in combination with Bio-Groom Natural Oatmeal Shampoo.

Safe to use with topical Flea & Tick treatments.

Ingredients: 10% (RAW) Colloidal Oatmeal USP, Purified Water, Stearmidopropyl Dimethylamine, Glycol Stearate, Ceteth-2, Polyethylene Glycol Monostearate, Hydroxyethyl Cellulose, Phenoxyethanol, Perfume, Citric Acid.

Free Of: Parabens and dyes.

ANTI-SHED

Deshedding Dog Conditioner

4 to 1 Concentrate

355 ml of concentrate - 1,8 L ready-to-use conditioner

3,8 L of concentrate - 19 L ready-to-use conditioner

Bio-Groom Anti-Shed Deshedding Dog Crème Rinse is a high quality, natural dog conditioner specifically developed to help reduce shedding. This crème rinse is great for double coated and long-haired breeds to keep their shedding down. It grips the loose coat and removes stubborn hair and loose undercoat during bathing to cut down on brushing and grooming as a whole. Anti-Shed Crème Rinse also removes tangles!

Our dog shedding conditioner reduces the amount of extra brushing for double coated or long hair breeds. The removal of loose hair decreases the chance of matting and hot spots. Anti-Shed Crème Rinse rinses out quickly and film-free, leaving the coat easy to manage and with a clean, fresh smell. It can and should be used all year, but customers will see the greatest benefits during weather changes.

This deshedding conditioner for dogs is free of parabens, silicones, and common allergens. It is cruelty free, soap free, and has 100% biodegradable conditioners. Additionally, the Soy Protein in our formula gives strength and body to the coat. Anti-Shed Crème Rinse is safe for puppies, kittens, the environment, and safe to use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Other anti-shed products are usually only available in shampoo. Use our Anti-Shed Deshedding Crème Rinse with our Anti-Shed Shampoo for extra superior results.

Benefits

- Dog deshed crème rinse to help reduce shedding, remove tangles, quicken grooming time, and decrease brushing.
- Can be used all year but is especially useful during weather changes.
- Features Soy Protein to strengthen and add body to your pet's coat.
- Rinses out fast and film-free, leaving the coat easy to manage and smelling fresh and clean.
- 100% biodegradable conditioners.

Directions

After shampoo and rinsing, apply an adequate amount of Anti-Shed Crème Rinse to the coat and work in well. Rinse with lukewarm water. For best results, work well through the coat for at least 3 minutes. May be diluted up to 1 part with 4 parts of warm water depending on the type and condition of the coat. For added benefits and results, use with Anti-Shed Deshedding Shampoo.

Ingredients: Purified Water, Stearamidopropyl Dimethylamine, Glycol Stearate, Ceteth-2, PEG 8 Stearate, VP/DMAA Acrylates Copolymer, Aloe Vera, Hydrolyzed Soy Protein, Matricaria Chamomilla, Phenoxyethanol, Fragrance, Citric Acid, 100% Biodegradable Conditioners.

Free of: parabens, silicones, and common allergens.

Stearamidopropyl Dimethylamine

Rating: 2 out of 5

Usage: Surfactant, emulsifier, cleaning agent, hair conditioning, moistener, emollient, antistatic action, promotes hair gloss.

Glycol Stearate

Rating: 4 out of 5

Usage: Surfactant, emulsifier, emulsion stabilizer, softening agent, skin conditioner, thickener, makes product increasingly hazy.

Ceteth-2

Rating: 1 out of 5

Usage: Surfactant, solubilizer, emulsifier, moistener.

PEG 8 Stearate

Rating: 2 out of 5

Usage: Surfactant, emulsifier.

VP/DMAA Acrylates Copolymer

Rating: 2 out of 5

Usage: Filming agent, hair fixer, hair conditioning.

Aloe Vera

Rating: 5 out of 5

Usage: Healing and moisturizing agent, heals burns and wounds, antimicrobial and anti-inflammatory effect.

Hydrolyzed Soy Protein

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Matricaria Chamomilla

Rating: 5 out of 5

Usage: Valid for all types of camomile. Used in cosmetics in the form of powder (powdery camomile), extract, oil, hydrolate and other forms. Soothing effect, freshening and moistening component. Ideal for sensitive skin, antiseptic, relieves irritation. Flavoring agent. Revitalizing, anti-inflammatory, cleaning, protective, smoothing, rejuvenating, and lightening agent, strengthens hair, promotes hair gloss.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

MAGIC BLACK

Color Enhancer

184 g

Magic Black™ is a unique, true-black spray-on chalk in a non polluting aerosol. It has been specially formulated to blacken and intensify black and to cover stains, discolorations and blemishes. **Magic Black** dries rapidly and stays on. Will not rub-off like ordinary chalk or even come off with water, but will wash out easily with Bio-Groom Shampoo. Works great on all long and short hair breeds, is non-sticky, non-irritating, and has a fresh, clean fragrance.

Don't just groom – Bio-Groom – your dogs and cats are worth it!

Directions

Before using SHAKE and AGITATE well for 15-20 seconds. Fluff hair, then spray lightly on desired areas only. Allow to dry a few seconds, then brush out excess. Make sure to cover eyes when spraying face.

Ingredients: Hexane, Propane, Butane, Ethanol, Talc, Carbon Black, Organoclay, Fragrance.

Hexane

Rating: n/a

Usage: Used as a solvent for vegetable oils, polymers, and paints

Talc

Rating: 4 out of 5

Usage: Antiseptic, cosmetics base, UV filter and protection, emollient.

Propane

Rating: 2 out of 5

Usage: Propellant, is used in hair sprays, deodorants, etc.

Carbon Black (Carbo activates)

Rating: 5 out of 5

Usage: Pore cleaning, anti-acne, reduces skin oiliness, smoothens skin relief, evens up facial complexion.

Butane

Rating: 2 out of 5

Usage: Aerosol propylene. Used in cosmetics and personal care products: shaving cream, hair conditioners, makeup products

Organoclay (Clay)

Rating: 5 out of 5

Usage: Peeling, matting, relieves skin inflammation and irritation, absorber, lifting.

Ethanol (Alcohol)

Rating: 4 out of 5

Usage: Preservative, solvent, aroma fixer, antiseptic, conductor of active ingredients. Bactericidal, anti-inflammatory, and antifungal effects.

MAGIC WHITE Whitening Cleaner

284 g

Magic White™ is a spray-on chalk of selected fineness, consistency and brightness. It has been formulated to whiten whites, cover yellowish stains and give body to the coat. **Magic White** may be used as a Dry Shampoo on white and light colored dogs and cats when regular shampooing is not practical. It leaves the coat smelling fresh and clean, is non-polluting, non-irritating – safe.

Don't just groom – Bio-Groom – your dogs and cats are worth it!.

Directions

Before using SHAKE and AGITATE well for 20-25 seconds. Fluff the coat then spray on LIGHTLY. Hold the can 6 to 8 inches from coat. Allow to stand for a few seconds – then simply brush as usual. A cosmetic sponge sprayed with with MAGIC WHITE may be used to apply the chalk to specific areas of the coat. Short hair breeds, buff sprayed area with soft towel if needed. Make sure to cover eyes when spraying face.

After Use: Invert can and spray for four seconds to clean valve. If spray button becomes clogged, pull off and clean. DO NOT stick pins or wire into can opening. Replace spray button firmly with valve opening pointed away from you.

Ingredients: Hexane, Propane, Butane, Ethanol, Talc, Organoclay, Fragrance.

COAT POLISH Spray-On Sheen

473 ml / 3,8 L

This special formula was developed to provide the coat with a rich, healthy show ring sheen. It will highlight all colors and keep dogs and cats groomed longer. It is uniquely designed to repel dust and dirt, and prevent stains. Untangles matted hair and keeps it tangle-free, lustrous, and easy to groom. Non-oily, non-sticky, and safe.

Safe to use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – Mild.

Directions

Make sure that dog or cat is clean before applying Coat Polish!

WET APPLICATION – For maximum sheen, shampoo first, rinse well and remove excess water.

SHORT HAIR BREEDS: Spray Coat Polish on the coat. Work in well with palm of hand until coat is completely covered. Stroke coat flat in direction of hair and allow to dry thoroughly.

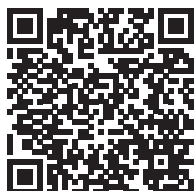

LONG HAIR BREEDS: For best results on long, silky coats spray on Coat Polish sparingly. Brush or comb while drying.

DRY APPLICATION – Touch up, clean coats only. Brush hair well, then spray on Coat Polish lightly. Stroke hair flat on short hair. Brush or comb long hair. Allow to dry and finish grooming.

MATTED, TANGLED COATS: Saturate mats and tangles with Coat Polish before bathing. Work in well and loosen mats with fingers, then bathe dog or cat with Bio-Groom Shampoo and follow above directions for long hair. No creme rinse needed.

Ingredients: Purified Water, Silicone Emulsion, Baby Powder Fragrance, Panthenol.

Free Of parabens and oils.

<http://biogroom.shop/shop/dog-products/finishers/coat-polish-2/>

Silicone Emulsion (Polydimethylsiloxane)

Rating: 2 out of 5

Usage: Silicone polymer. For skin: promotes smoothness, prevents irritation and reddening, creates protective film. For hair: promotes silkiness and gloss, hair does not electricize, boosts hair volume, protects hair. Acts as a filming agent and anti-foamer.

Panthenol

Rating: 5 out of 5

Usage: Moistening agent, hair conditioning, skin regeneration and healing, strengthens hair, anti inflammatory, anti-acne, moisture retainer, softening component.

SO-QUICK Finisher

473 ml / 3,8 L

So-Quick is a dog grooming spray specifically developed to shorten the time it takes dogs' coats to dry after bathing. It cuts down drying time by up to 50%, providing a great benefit to both groomers and individual users. So-Quick can allow groomers to bathe more dogs per day. Ideal for small pets that can't stay wet for very long, and dogs with long hair or thick coats who risk developing hot spots and mold or mildew in their undercoat if wet for too long. The unscented formula leaves no residue while detangling and smoothing hair and eliminating frizz. Non-oily, fragrance free, and safe.

Safe to use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – Fragrance Free.

Benefits

- Cuts drying time in half and keeps style for longer.
- Fragrance- and residue-free; doesn't clash with shampoos or conditioners.
- Detangles and smooths coat, eliminates frizz, and locks out humidity.
- Non-oily, cruelty free, and 100% biodegradable.
- Safe for puppies, kittens, and our environment.

Directions

After bathing pet, shake So-Quick bottle well. Hold bottle 5 to 8 inches away from pet. Spray evenly over wet coat, avoiding eyes. For exceptional results, let So-Quick Drying Aid set for 2 minutes, then blow dry and style as normal. Can be used with any Bio-Groom Shampoo and Conditioner.

Keep out of reach of children. Flammable.

Ingredients: Purified Water, Dimethicone, Cocamide DIPA, Phenoxyethanol.

Free Of: Parabens and dyes.

<http://biogroom.shop/shop/dog-products/finishers/so-quick/>

Dimethicone

Rating: 2 out of 5

Usage: Silicone polymer. For skin: promotes smoothness, prevents irritation and reddening, creates protective film. For hair: promotes silkiness and gloss, hair does not electricize, boosts hair volume, protects hair. Acts as a filming agent and anti-foamer.

Cocamide DIPA

Rating: n/a

Usage: Emulsifying: Promotes the formation of intimate mixtures between immiscible liquids by modifying the interfacial tension (water and oil).

Surfactant: Reduces the surface tension of cosmetics and contributes to the even distribution of the product when it is used. Viscosity controlling : Increases or decreases the viscosity of cosmetics

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

EAR-CARE PADS

Non Oily - Non Sticky.

160 g - 25 pads

Bio-Groom **Ear Care™** pre-moistened 100% cotton pads are a veterinary preparation specially developed for routinely cleaning and drying ears of dogs and cats. Gently cleans and dries the ear canal. Removes excessive wax build-up.

Benefits

- Eliminates ear canal odor
- Antibacterial and antifungal
- Non-stinging and mild

Directions

Clean inside ears and around the base of the ears. Squeeze pads to allow lotion to enter lower ear canal. Gently massage ears until dirt and wax are dissolved. Allow pet to shake its head to dispel accumulation. For best results, use twice a month or after each bath and before and after swimming or as directed by a veterinarian. Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Warnings

For external use only on dogs and cats.

Ask a veterinarian before use if your pet has

- painful ear condition
- discharge
- broken or abraded skin

When using this product

- avoid contact with eyes. If contact occurs, rinse eyes thoroughly with water.

Stop use and ask a veterinarian if

- conditions worsens or does not improve after use of this product as directed.

Ingredients: Purified water, Isopropyl Alcohol, Polysorbate 60, Salicylic Acid, Boric Acid, Eucalyptol.

<http://biogroom.shop/shop/dog-products/wellness/ear-care-pads/>

Isopropyl Alcohol

Rating: 4 out of 5

Usage: Preservative component, solvent, flavour, viscosity regulator, defoamer.

Polysorbate 50

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

Salicylic Acid

Rating: 4 out of 5

Usage: Preservative component, antibacterial agent, exfoliating agent, relieves inflammation, cleans pores, antiseptic, regulates the sebaceous glands.

Boric Acid

Rating: 1 out of 5

Usage: Used as an antiseptic, disinfectant and antifungal agent.

Eucalyptol

Rating: 5 out of 5

Usage: Essential oil. Bactericide, anti-virus, deodorizing action.

STAIN FREE

Hypo-Allergenic Under Eye Stain Cover Cream

19.9 g

Bio-Groom® Under Eye Stain Cover Cream has been specially developed to blend away tear stains and imperfections on white hair. Repeated use will gradually lighten stained areas because the cream coating provides protection from the discoloring effects of tears on skin and hair under the eyes. Hypo-Allergenic, 100% Fragrance Free, all natural ingredients.

Directions

Apply with fingertips. Gently rub on stained areas. Avoid getting directly into eyes. With attached comb/brush combination smoothly distribute the cream using just enough to cover the stained areas.

Ingredients: Mineral Oil, Lanolin Oil, Titanium Dioxide.

Mineral oil (Paraffinum Liquidum)

Rating: 2 out of 5

Usage: Petroleum product. Moistener, softener, antistatic, Solvent.

Lanolin Oil

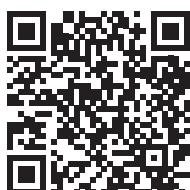

Rating: 5 out of 5

Usage: Thickener, emulsifier, emollient, nourishes the skin, heals, rejuvenates. Improves the condition of hair, promotes gloss and silkiness.

Titanium Dioxide

Rating: 5 out of 5

Usage: Pigment, excipient, UV filter, white pigment.

EAR FRESH

Grooming Ear Powder

24 g / 85 g

Help keep ears dry and reduce odor with this excellent ear powder. **Ear Fresh™** has special tight grip properties for removing hair from ear canals of dogs. Excellent for hand stripping. Comes with convenient funnel tip dispenser.

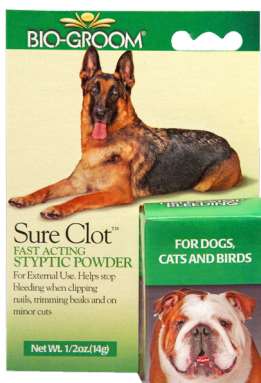

Directions

Clean ears first. Use cotton swabs and Bio-Groom® Liquid Ear Care Lotion. Then, gently puff Ear Fresh into the ears to keep them dry and odor free. To remove unwanted hair from the ear canal, puff Ear Fresh into the ear and remove hair with forceps or tweezers. For hand stripping, use the amount necessary to achieve the desired results. Should your dog or cat have a painful ear condition or discharge from the ear, see your veterinarian.

Contains inert amorphous powder.

SURE CLOT

Fast Acting Styptic Powder

14,8 g / 44 g

Sure Clot™ is a new specially developed formula by Bio-Groom to help stop bleeding from clipping nails, trimming beaks, and on minor cuts. Sure Clot's quality and performance is sure to satisfy.

Directions

Dip nail in powder or apply with moistened cotton tip applicator to area. Use moderate constant pressure until bleeding stops.

Ingredients: Ferric Subsulfate, Bentonite, Diatomite, Aluminum Chloride, Ammonium Chloride, Copper Sulfate, and Iodine Complex.

Ferric subsulfate

Rating: n/a

Usage: Ferric subsulfate is prepared from ferrous sulfate, sulfuric acid and nitric acid.

Hemostatic agent which stops bleeding by contracting blood vessels.

Bentonite

Rating: 5 out of 5

Usage: Tightens pores, mats skin, healing, bleaching, cleaning agent.

Diatomite

Rating: n/a

Usage: ultra-absorbent powder, reduces the drying time, effective anti-caking agent.

Aluminum Chloride

Rating: 2 out of 5

Usage: Reduces sweating.

Ammonium Chloride

Rating: 4 out of 5

Usage: pH regulator, buffer substance, viscosity regulator, thickener, fragrance.

Copper Sulfate

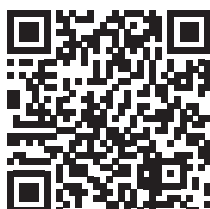

Rating: 3 out of 5

Usage: Preservative, healing effect.

Iodine Complex (Iodine)

Rating: n/a

Usage: Iodine is used as an antiseptic. The antimicrobial action of iodine is quick and works at low concentrations.

BITTER TASTE

Chewstop Spray

236 ml

This fast acting topical spray stops pets from chewing and fur-biting. **Bitter Taste™** contains a special ingredient which is the most bitter substance known to man, and will prevent chewing on blankets, bandages, casts, etc. It protects the coat and skin, yet is safe and non-stinging!

Directions

Spray liberally on affected areas of the coat. Make sure **Bitter Taste** penetrates to the skin. Allow to dry. Repeat as often as necessary. In most cases chewing, licking and biting are eliminated with only 1 application.

CAUTION: Keep out of the Reach of Children. For external use only. Avoid contact with eyes. Should symptoms persist contact your veterinarian.

Ingredients: Denatonium Benzoate, 20 ppm in a water-isopropanol base.

Isopropanol (Isopropyl Alcohol)

Rating: 4 out of 5

Usage: Preservative component, solvent, flavour, viscosity regulator, defoamer.

Denatonium Benzoate

Rating: 2 out of 5

Usage: Denaturant, flavouring agent.

PAW SCRUBBER™

Unscented

236 ml

Bio-Groom Paw Scrubber is a ready-to-use, hypo-allergenic formula that gently cleans away dirt from sensitive paws..

Benefits

- No-Rinse Formula
- Sulfate Free
- Hypo-Allergenic
- Non-Sticky, non-oily
- Natural rich foam
- Safe for irritated paws and cracked paws.

Directions

Press down gently on the Foamer pump until light foam appears. Gently scrub the paws and wipe away dirt. Removable silicone brush for easy clean up.

Ingredients: Purified water, alpha olefin sulfonate, lauramidopropyl betaine, polysorbate 20, decyl glucoside, chamomile, PEG 12 dimethicone, phenoxyethanol.

Alpha Olefin Sulfonate (Sodium C14-16 Olefin Sulfonate)

Rating: 2 out of 5

Usage: Non Sulfate Anionic Surfactant, foaming agent, cleaning agent, moistener, emulsifier. Most effective at removing oily residue. Alternative to sodium laureth sulfate SLS. Used today in shampoos and other bath products due to its skin mildness, cleaning and foaming characteristics and its ability to mix well with water to remove dirt and oils.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

Polysorbate 20

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

<https://biogroom.shop/shop/dog-products/wellness/paw-scrubber-unscented/>

Decyl Glucoside

Rating: 5 out of 5

Usage: In high-end human cosmetics. Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener. Decyl glucoside is a mild non-ionic surfactant used in cosmetic formularies, including baby shampoo and in products for individuals with a sensitive skin. Many natural personal care companies use this cleanser because it is plant-derived, biodegradable, and gentle for all hair types. Improves stability and shelf life. 31% of usage is a Baby shampoos.

Chamomile (Matricaria Chamomilla)

Rating: 5 out of 5

Usage: Valid for all types of chamomile. Used in cosmetics in the form of powder (powdery chamomile), extract, oil, hydrolate and other forms. Soothing effect, freshening and moistening component. Ideal for sensitive skin, antiseptic, relieves irritation. Flavoring agent. Revitalizing, anti-inflammatory, cleaning, protective, smoothing, rejuvenating, and lightening agent, strengthens hair, promotes hair gloss.

PEG-12 Dimethicone

Rating: 2 out of 5

Usage: Description valid for all types: PEG-10 Dimethicone, PEG-12 Dimethicone, etc. Silicone. Skin and hair conditioner.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

REPEL-35

Insect Control Spray

236 ml / 473 ml / 946 ml / 3.8 L

Bio-Groom's **Repel-35** is the most effective product on the market to control fleas & ticks. Made with Lanolin and Aloe in a water based formula, the ability to control these pests for 35 days enhances your pets health and happiness, when used according to label instructions.

Benefits

Residual action protects horses from Horn flies, Face flies, Horse flies, Mosquitoes and Gnats. Kills Lice and Louse eggs, Ticks and Fleas (adults and larvae) on Dogs.

Directions

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS & HORSES

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

473 ml (16 oz)
SKU 08016
0 21653 08016 4

On Horses

Apply this product to a clean coat. Brush animal thoroughly to remove loose dirt and dust or bathe the animal with BIO-GROOM GOLDEN SHEEN Conditioning Shampoo. Allow coat to dry before applying this product. For protection from flies, mosquitoes and gnats: Apply at a rate of 2 fl oz. per adult animal, sufficient to wet the hair thoroughly. Avoid spraying into eyes. Use a soft cloth to wipe around eyes and face. Repeat every four weeks if required, as prescribed by a veterinarian. Reapply after animal has been washed or soaked by rain.

On Dogs

To control fleas, ticks and lice: Start spraying at the tail, moving the dispenser rapidly and making sure the animal's entire body is covered, including the legs and underbody. While spraying, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets thoroughly. Do not spray into eyes or face. Avoid contact with genitalia. Repeat every 35 days, if needed.

946 ml (32 oz)
SKU 08032
0 21653 08032 4

Use Restrictions

- Apply this product only as specified on this label.
- Except when applying to dogs or horses, do not apply this product in a way that will contact adults, children or pets either directly or through drift.
- Do not contaminate food or feed stuffs.
- Remove or cover exposed food and drinking water before application.
- Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitats can occur.
- Do not allow the product to enter drain during or after application.
- Do not apply to puppies less than 12 weeks old.
- DO NOT USE ON CATS OR KITTENS.

Consult a Veterinarian

Before applying this product on medicated, debilitated, aged, pregnant or nursing animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Storage and Disposal

Pesticide Storage: Store in a cool, dry place in an area that is inaccessible to children and animals. Store in original, sealed container away from food and feed.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

For Information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-858-7378.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Environmental Hazards: This product is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

KEEP OUT OF REACH OF CHILDREN CAUTION

Ingredients

Active Ingredient

*Permethrin: 0.50%

Inert Ingredients: 99.50%
100.00%

*(3- phenoxyphenyl) methyl (+/-) cis/ trans 3- (2,2- dichloroethenyl) 2,2 – di methylcyclopropanecarboxylate. Cis/ trans ratio: min. 35%(+/-) cis and max. 65% (+/-) trans.

KEEP OUT OF REACH OF CHILDREN CAUTION

Permethrin

Rating: n/a

Usage: Permethrin is a synthetic pyrethroid and neurotoxin. Permethrin affects the neuronal membrane by blocking the movement of sodium ions from outside to inside the neuronal cell membrane thereby disrupting the sodium channel current that regulates the polarization of the membrane. This leads to delayed repolarization and subsequent paralysis of the nervous system. Permethrin is used to eradicate parasites such as head lice, ticks and scabies from humans and animals.

9,5 L of concentrate - 47,5 L ready-to-use shampoo
19 L of concentrate - 95 L ready-to-use shampoo

Flea & Tick is a conditioning shampoo concentrate that contains PYRETHRINS for effective flea, lice and tick control. Coconut oil derived ingredients in this formula cleans gently, highlights all colors and makes white sparkle. The protein and lanolin in this shampoo helps condition skin and coat, prevents dryness and gives the coat a deep down lustre and sheen. Coat dries smooth, manageable and tangle-free. pH balanced, mild, rinses out completely, leaving the coat smelling fresh and clean.

Benefits

- Contains Pyrethrins
- Kills Fleas, Lice and Ticks
- Conditions
- Deodorizes
- Leaves Coat with Radiant Sheen

Pyrethrin Facts:

- Kills fleas, lice and ticks on contact.
- Pyrethrins are environmentally safe, cannot build up in the soil or percolate down into ground or water.
- Pyrethrins in our Flea & Tick products are considered to have the best safety margin of all topical products.
- Pyrethrins have been used successfully for over 2,000 years.
- Kills fleas and ticks by attacking the nervous system.
- Pyrethrin is a compound derived from the daisy-like cousin of the chrysanthemum flower and harvested in Kenya.
- 100% Natural and Biodegradable

KEEP OUT OF REACH OF CHILDREN CAUTION

Pyrethrin

Rating: n/a

Usage: Pyrethrins are pesticides found naturally in some chrysanthemum flowers. They are a mixture of six chemicals that are toxic to insects. Pyrethrins are commonly used to control mosquitoes, fleas, flies, moths, ants, and many other pests.

Piperonyl Butoxide

Rating: n/a

Usage: Piperonyl Butoxide is a synthetic derivative of benzodioxole and used as an insecticide synergist, Piperonyl Butoxide enhances the active properties of pyrethrin, pyrethroid, rotenone, and carbamate pesticide ingredients by inhibiting insect microsomal enzyme detoxification activity

N-octyl bicycloheptene dicarboximide

Rating: n/a

Usage: N-octyl bicycloheptene dicarboximide also known as MKG-264 is a pesticide active ingredient that works as a chemical synergist (makes other active ingredients more toxic to insects).

Disodium Cocoamphodiacetate

Rating 4 out of 5

Usage: Soft cleaning agent (surfactant), foam generator, hair and skin conditioning.

Decyl Glucoside

Rating: 5 out of 5

Usage: Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener.

Alpha Olefin Sulfonate (Sodium C14-16 Olefin Sulfonate)

Rating: 2 out of 5

Usage: Surfactant, foaming agent, cleaning agent, moistener, emulsifier.

Cocamidopropyl Hydroxysultaine

Rating: 3 out of 5

Usage: Surfactant, antistatic, skin and hair conditioning, foaming agent and booster, increases viscosity, thickener.

Polysorbate 20

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

Hydrolyzed Soy Protein (Glycine max)

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Choleth-24

Rating: 1 out of 5

Usage: Surface active agent, emulsifying agent.

Ceteth-24

Rating: 1 out of 5

Usage: Refers to all modifications (Ceteth-1, 2, 3, 5, 6, 7, etc.). Surfactant, solubilizer, emulsifier, moistener.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

GROOM`N FRESH COLOGNE

Luxury, scented dog perfume spray

236 ml / 946 ml / 3.8 L

Groom 'n Fresh™ Cologne is a dog cologne spray that helps keep your pet smelling delightfully fresh and clean, even between baths. The truly elegant, long-lasting, unique fragrance in Groom 'n Fresh™ has been carefully selected from the finest, most prestigious perfume oils on the cosmetic market. A cologne of such quality is a special treat for all furry pets!

This cologne is perfect for keeping your pet smelling great between baths. You can even use this cologne after bathing your pet with Groom 'n Fresh™ Shampoo for an extra lovely result. Groom 'n Fresh™ cologne is cruelty free and safe for even puppies and kittens. This non-aerosol gives you 100% cologne with no propellant, and is safe to use with topical flea and tick treatments.

Benefits

- Delightfully fresh and clean scented dog fragrance spray.
- The unique fragrance was meticulously chosen from the most esteemed perfume oils on the cosmetic market.
- The long-lasting, elegant fragrance is great for extending the time needed between baths.

Directions:

Hold the bottle 5-8 inches away from your pet. Spray on evenly. Like all perfumes and colognes, avoid spraying directly into eyes or on broken, irritated, or sensitive skin.

Keep out of reach of children; this product is flammable.

PURRFECT WHITE SHAMPOO **Conditioning Coat Brightener Shampoo** **8 to 1 Concentrate**

236 ml of concentrate - 2,1 L of ready-to-use shampoo

A coconut oil base formula enriched with protein, **Purrfect White™** is a non-irritating, high quality shampoo specifically developed for white and light colored coats. Special whiteners and pearlescent brighteners add brilliance and sparkle to the coat. Unconditionally guaranteed to leave the coat clean, smooth and easy to manage. The protein in this mild coconut oil base formula gives life and body to the coat and helps prevent dryness. Rich and foamy, it has a neutral pH, is non-bleaching and controls matting, tangling and fly-away hair. Rinses out quickly, leaving the coat with a fresh, clean smell.

Safe to Use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – Soap Free.

Directions

Wet the coat with warm water. Apply Purrfect White shampoo and work well through the coat and avoid contact with eyes. Rinse. For best results shampoo and rinse again, then dry and groom as usual. Purrfect White may be diluted with 4 parts of water.

Ingredients: Purified water, cleansers derived from regrowable and 100% biodegradable sources of Coconut Oil, Sodium Coco Sulfate, Disodium Cocoamphodiacetate, Cocoamidopropylamine Oxide, PEG-4 Rapeseedamide, Cetostearyl Alcohol, Vegetable Glycerine, Hydrolyzed Soy Protein, Panthenol (Vitamin B5), Floral Perfume, Citric Acid, Blue1, Red 33.

Sodium Coco Sulfate

Rating: 4 out of 5

Usage: Cleaning agent, emulsifier.

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Used in natural and vegan cosmetics. Soft cleaning agent(surfactant), with amphoteric structure meaning that its head contains both a positively and a negatively charged part (surfactants are most commonly anionic meaning their head has a negative charge) mild foam generator, hair and skin conditioning. Prevents irritation of the skin, eyes and mucous membranes. It is authorized in organic products. Makes hair easy to comb, soft and shiny. Confers volume and lightness. Maintains skin in good condition. Recommended for baby products.

Cocamidopropylamine Oxide

Rating: 2 out of 5

Usage: Emulsifier, moistens skin. Promotes hair gloss, makes it more flexible and healthier.

PEG-4 Rapeseedamide

Rating: 2 out of 5

Usage: Surfactant, thickener, emulsifier.

Vegetable Glycerin

Rating: 5 out of 5

Usage: Emulsifier, solvent, moistening agent, improves hair structure, promotes hair gloss, softens skin.

Hydrolyzed Soy Protein (Glycine max)

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Ethylene Glycol Distearate (Glycol Distearate)

Rating: 4 out of 5

Usage: Thickener, filming agent, emulsion stabilizer, softening agent. Used to increase turbidity of a product.

Panthenol

Rating: 5 out of 5

Usage: Moistening agent, hair conditioning, skin regeneration and healing, strengthens hair, anti-inflammatory, anti-acne, moisture retainer, softening component.

Citric Acid

Rating: 5 out of 5

Usage: Skin cleaning and peeling, antioxidant, preservative, stabilizes acidity, skin bleaching, nail plate strengthening, promotes hair growth, anti-inflammatory action, lifting.

Sodium Coco Sulfate

Rating: 4 out of 5

Usage: Cleaning agent, emulsifier.

Decyl Glucoside

Rating: 5 out of 5

Usage: In high-end human cosmetics. Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener. Decyl glucoside is a mild non-ionic surfactant used in cosmetic formularies, including baby shampoo and in products for individuals with a sensitive skin. Many natural personal care companies use this cleanser because it is plant-derived, biodegradable, and gentle for all hair types. Improves stability and shelf life. 31% of usage is a Baby shampoos.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

PEG-75 Lanolin

Rating: 2 out of 5

Usage: Emulsifier, moistening agent, softener, surfactant.

Polysorbate 20

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

Chamomile (Matricaria Chamomilla)

Rating: 5 out of 5

Usage: Valid for all types of chamomile. Used in cosmetics in the form of powder (powdery chamomile), extract, oil, hydrolate and other forms. Soothing effect, freshening and moistening component. Ideal for sensitive skin, antiseptic, relieves irritation. Flavoring agent. Revitalizing, anti-inflammatory, cleaning, protective, smoothing, rejuvenating, and lightening agent, strengthens hair, promotes hair gloss.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

FLEA & TICK SHAMPOO

Protein-Lanolin Enriched Shampoo

4 to 1 Concentrate

236 ml of concentrate - 1,2 L of ready-to-use shampoo

Flea & Tick is a conditioning shampoo concentrate that contains PYRETHRINS for effective flea, lice and tick control. Coconut oil derived ingredients in this formula cleans gently, highlights all colors and makes white sparkle. The protein and lanolin in this shampoo helps condition skin and coat, prevents dryness and gives the coat a deep down lustre and sheen. Coat dries smooth, manageable and tangle-free. pH balanced, mild, rinses out completely, leaving the coat smelling fresh and clean.

Benefits

- Contains Pyrethrins
- Kills Fleas, Lice and Ticks
- Conditions
- Deodorizes
- Leaves Coat with Radiant Sheen

Directions

READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS & CATS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dogs & Cats

Use as is or dilute 1 part with 4 parts of water. Wet coat thoroughly with warm water. Apply shampoo and work well into the coat. Allow lather to stand for 10 minutes if fleas, ticks, or lice are present (if heavily infested use full strength). Rinse with warm water, dry and groom as usual. Repeat every 7 days if needed. Do not use on puppies or kittens under 12 weeks of age.

Consult a Veterinarian

Before using this product on debilitated, medicated, aged, pregnant or nursing animals.

First Aid

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

<http://biogroom.shop/shop/cat-products/flea-tick/>

Storage and Disposal

Pesticide Storage: Store in a cool, dry place in an area that is inaccessible to children and animals. Store in original, sealed container away from food and feed.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Ingredients

Active Ingredient

Pyrethrins	0.045%
*Piperonyl Butoxide, Technical	0.090%
N-Octyl Bicycloheptene Dicarboximide	0.150%
Inert Ingredients	99.715%

*Consists of .072% of (butylcarbityl) (6-propylpiperonyl) ether and .018% of related compounds.

Pyrethrin

Rating: n/a

Usage: Pyrethrins are pesticides found naturally in some chrysanthemum flowers. They are a mixture of six chemicals that are toxic to insects. Pyrethrins are commonly used to control mosquitoes, fleas, flies, moths, ants, and many other pests.

Piperonyl Butoxide

Rating: n/a

Usage: Piperonyl Butoxide is a synthetic derivative of benzodioxole and used as an insecticide synergist. Piperonyl Butoxide enhances the active properties of pyrethrin, pyrethroid, rotenone, and carbamate pesticide ingredients by inhibiting insect microsomal enzyme detoxification activity.

N-octyl bicycloheptene dicarboximide

Rating: n/a

Usage: N-octyl bicycloheptene dicarboximide also known as MKG-264 is a pesticide active ingredient that works as a chemical synergist (makes other active ingredients more toxic to insects).

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Used in natural and vegan cosmetics. Soft cleaning agent (surfactant), with amphoteric structure meaning that its head contains both a positively and a negatively charged part (surfactants are most commonly anionic meaning their head has a negative charge) mild foam generator, hair and skin conditioning. Prevents irritation of the skin, eyes and mucous membranes. It is authorized in organic products. Makes hair easy to comb, soft and shiny. Confers volume and lightness. Maintains skin in good condition. Recommended for baby products.

Decyl Glucoside

Rating: 5 out of 5

Usage: In high-end human cosmetics. Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener. Decyl glucoside is a mild non-ionic surfactant used in cosmetic formularies, including baby shampoo and in products for individuals with a sensitive skin. Many natural personal care companies use this cleanser because it is plant-derived, biodegradable, and gentle for all hair types. Improves stability and shelf life. 31% of usage is a Baby shampoos.

Alpha Olefin Sulfonate (Sodium C14-16 Olefin Sulfonate)

Rating: 2 out of 5

Usage: Non Sulfate Anionic Surfactant, foaming agent, cleaning agent, moistener, emulsifier. Most effective at removing oily residue. Alternative to sodium laureth sulfate SLS. Used today in shampoos and other bath products due to its skin mildness, cleaning and foaming characteristics and its ability to mix well with water to remove dirt and oils.

Cocamidopropyl Hydroxysultaine

Rating: 3 out of 5

Usage: Amphoteric Surfactant, antistatic, skin and hair conditioning, foaming agent and booster, increases viscosity (thickener). According to EWG, is a safe ingredient, vegan. It is not expected to have a negative impact on human health. It is not toxic and doesn't cause cancer. Could be considered natural.

Polysorbate 20

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

Hydrolyzed Soy Protein (Glycine max)

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Choleth-24

Rating: 1 out of 5

Usage: Surface active agent, emulsifying agent.

Ceteth-24

Rating: 1 out of 5

Usage: Refers to all modifications (Ceteth-1, 2, 3, 5, 6, 7, etc.). Surfactant, solubilizer, emulsifier, moistener.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.

SILKY CAT SHAMPOO

Tearless Protein-Lanolin Shampoo

4 to 1 Concentrate

236 ml of concentrate - 1,2 L of ready-to-use shampoo

Silky Cat is a baby-mild coconut oil base shampoo that conditions as it cleans. Is non-irritating and will not strip natural oils from skin and coat. Highlights all colors and makes white sparkle. Contains lanolin to prevent dryness. The absorbable protein builds body and makes the coat shine. Coat dries smooth, manageable and tangle-free. Essential for damaged, overworked hair. Helps control body odors, is pH balanced and rinses out completely. Leaves the coat smelling fresh and clean. Safe for puppies and kittens.

Safe to Use with topical flea and tick treatments. Recommended by top breeders and professional groomers worldwide.

Cruelty Free – Soap Free.

Directions

Use as is or dilute 1 part with 4 parts water. Wet hair thoroughly with warm water. Apply shampoo and work well through the coat. Rinse. Short Hair Breeds: Dry and brush the coat with soft brush or wipe with soft cloth to bring out luster. Long Hair Breeds: Dry, then just brush or comb.

Ingredients: Purified Water, Cleansers derived from regrowable and 100% biodegradable source of Coconut Oil, Disodium Cocoamphodiacetate, Cocamide DIPA, PEG-71 Lanolin, Hydrolyzed Soy Protein, Polysorbate 20, Lavendar Fragrance, Phenoxyethanol.

BIO-SHEEN MINK OIL SPRAY

Mink Oil Spray

946 ml

Bio-Sheen Spray with vitamin E gives the coat a beautiful, brilliant shine instantly. Intensifies all colors, makes white sparkle and leaves your horse with a show ring finish. Fortified with all natural ingredients, Mink oil, Vitamin E and Lanolin. Bio-Sheen conditions coat and skin, essential for dry, dull coats. Helps untangle manes and tails, makes them shine and stay in place better. Special sunscreens help protect the hair from sun damage, from bleaching and drying.

For show-ring perfection don't just groom – Bio-Groom, your horse is worth it!

Directions

For best results, bathe horse with Bio-Groom Protein-Lanolin enriched Golden Sheen Shampoo first. Rinse and allow to dry. Then spray Bio-Sheen lightly and evenly over the entire coat, mane and tail. Brush and groom as usual.

WARNING: FLAMMABLE! Do not spray near open flame. Avoid spraying in eyes.

KEEP OUT OF REACH OF CHILDREN.

Ingredients: Isopropyl Alcohol, Lanolin, Mink Oil, Mineral Oil, Ethylhexyl Dimethyl PABA, Wheat Germ Oil, Benzophenone-3, Perfume.

GOLDEN SHEEN SHAMPOO

Protein-Lanolin Fortified Shampoo

4 to 1 Concentrate

3,8 L of concentrate - 19 L ready-to-use shampoo

This coconut oil base shampoo cleans thoroughly without stripping natural, protective oils from the skin and coat, Gives the coat a beautiful, healthy sheen.

Highlights & brightens all colors. Removes stains and makes white sparkle. Leaves manes & tails soft, tangle-free and easy to groom. Non-irritating to eyes. Contains lanolin to condition the skin and prevent dryness & scaling. The absorbable protein in this shampoo works long after rinsing, giving the coat a deep down lustre and sheen. Rinses out quickly.

Concentrated – 1 bottle makes 5

Directions

Wet the horse thoroughly with water. Apply shampoo full strength to stains first. May also be used full strength on body and on tangled mane and tail. To dilute, pour 1 or 2 ounces of shampoo into a pail and add about 1 gallon of warm water. Sponge and rub well over animal's entire body. Rinse and remove excess water with a scraper. In cold weather, towel dry and blanket the horse or walk him until dry.

Ingredients: Purified water, cleansers derived from regrowable and 100% biodegradable sources of Coconut Oil, Disodium Cocoamphodiacetate, Cocoamide DIPA, Choleth-24, Ceteth 24, Hydrolyzed Soy Protein, Polysorbate 20, Lavendar Fragrance, Phenoxyethanol.

SHOW WHITE SHAMPOO

Coat Brightener Shampoo

8 to 1 Concentrate

3,8 L of concentrate - 34,2 L ready-to-use shampoo

A coconut oil base formula enriched with protein, **Show White** is a non-irritating, high quality shampoo specifically developed for white and light colored coats, manes and tails. Special whiteners and pearlescent brighteners add brilliance and sparkle to the coat. Unconditionally guaranteed to leave the coat show-ring clean. The protein in this shampoo works long after rinsing, giving the coat a deep-down luster and helps prevent dryness. Leaves manes and tails soft, smooth and easy to groom. **Show White** is rich and foamy, has a neutral pH, is non-bleaching and does not strip natural, protective oils from skin and coat.

For show-ring perfection don't just groom – Bio-Groom, your horse is worth it!

Cruelty Free – Soap Free.

Benefits

Purified water, cleansers derived from regrowable and 100% biodegradable sources of Coconut Oil.

Directions

Wet the horse thoroughly with water. Apply **Show White™** shampoo and rub well over animals entire body. Work well through mane and tail. Give special attention to white socks and to white and light colored areas of the body. For heavily tangled manes, tails and dull coats, use Bio-Groom Revitalizer. Rinse and remove excess water with a scraper. Show White may be diluted with up to 8 parts water.

Sodium Coco Sulfate

Rating: 4 out of 5

Usage: Cleaning agent, emulsifier.

Disodium Cocoamphodiacetate

Rating: 4 out of 5

Usage: Used in natural and vegan cosmetics. Soft cleaning agent(surfactant), with amphoteric structure meaning that its head contains both a positively and a negatively charged part (surfactants are most commonly anionic meaning their head has a negative charge) mild foam generator, hair and skin conditioning. Prevents irritation of the skin, eyes and mucous membranes. It is authorized in organic products. Makes hair easy to comb, soft and shiny. Confers volume and lightness. Maintains skin in good condition. Recommended for baby products.

Cocamidopropylamine Oxide

Rating: 2 out of 5

Usage: Emulsifier, moistens skin. Promotes hair gloss, makes it more flexible and healthier.

PEG-4 Rapeseedamide

Rating: 2 out of 5

Usage: Surfactant, thickener, emulsifier.

Vegetable Glycerin

Rating: 5 out of 5

Usage: Emulsifier, solvent, moistening agent, improves hair structure, promotes hair gloss, softens skin.

Hydrolyzed Soy Protein (Glycine max)

Rating: 5 out of 5

Usage: Used in cosmetics as oil, extract, wax and in other forms. Moistening, protective function, decelerates aging process, nourishes and restores skin.

Ethylene Glycol Distearate (Glycol Distearate)

Rating: 4 out of 5

Usage: Thickener, filming agent, emulsion stabilizer, softening agent. Used to increase turbidity of a product.

Panthenol

Rating: 5 out of 5

Usage: Moistening agent, hair conditioning, skin regeneration and healing, strengthens hair, anti inflammatory, anti-acne, moisture retainer, softening component.

Citric Acid

Rating: 5 out of 5

Usage: Skin cleaning and peeling, antioxidant, preservative, stabilizes acidity, skin bleaching, nail plate strengthening, promotes hair growth, anti-inflammatory action, lifting.

Sodium Coco Sulfate

Rating: 4 out of 5

Usage: Cleaning agent, emulsifier.

Decyl Glucoside

Rating: 5 out of 5

Usage: In high-end human cosmetics. Sugar surfactant, emulsion stabilizer, supports fluid balance of skin, thickener. Decyl glucoside is a mild non-ionic surfactant used in cosmetic formularies, including baby shampoo and in products for individuals with a sensitive skin. Many natural personal care companies use this cleanser because it is plant-derived, biodegradable, and gentle for all hair types. Improves stability and shelf life. 31% of usage is a Baby shampoos.

Lauramidopropyl Betaine

Rating: 4 out of 5

Usage: Surfactant, thickener, antistatic, relieves irritation, foaming booster, viscosity regulator, skin and hair conditioning, cleans and softens skin.

PEG-75 Lanolin

Rating: 2 out of 5

Usage: Emulsifier, moistening agent, softener, surfactant.

Polysorbate 20

Rating: 2 out of 5

Usage: Refers to all components, starting with Polysorbate- or Twin-. E.g. Twin-80, Polysorbate-20, etc. Emulsifying component, anti-foaming agent, antistatic, solvent.

Chamomile (Matricaria Chamomilla)

Rating: 5 out of 5

Usage: Valid for all types of chamomile. Used in cosmetics in the form of powder (powdery chamomile), extract, oil, hydrolate and other forms. Soothing effect, freshening and moistening component. Ideal for sensitive skin, antiseptic, relieves irritation. Flavoring agent. Revitalizing, anti-inflammatory, cleaning, protective, smoothing, rejuvenating, and lightening agent, strengthens hair, promotes hair gloss.

Phenoxyethanol

Rating: 2 out of 5

Usage: Preservative.
